 - Shadblow – *Amelanchier arborea*
- Tree Lilac
 - Ivory Silk - *Syringa reticulata*
 - Summer Snow – *Syringa reticulat*

PROHIBITED STREET TREES

The public tree lawn is a unique environment due to its exposure to urban stresses such as road salt, size constraints, and poor soil conditions making it an unsuitable planting site for many tree species. The following trees are prohibited for street tree planting in Perrysburg for a variety of reasons including weak wood, susceptibility to disease or insect pests, overly messy flowers or fruit, aggressive root systems, incompatibility with our soil, and/or early leaf drop.

- Ash
 - European Mountain Ash – *Sorbus spp*
 - Green Ash - *Pennsylvanica*
 - White - *Fraxinus americana*
- Baldcypress - *Taxodium distichum*
- Black Locust – *Robinia pseudoacacia*
